Hot spreiner. J. Haddon, 46 Lispenard street.

Hot spreiner. And the season.—This watering place is now open for the reception of visiters. The supply of mineral water is most abundant, and there are eight douche and plume baths, of various temperatures, from 22 degs. to 106 deg. Fahrenheit. As a remedy in many chronic diseases, there waters are excelled by nothing ever known to the human race. In gout, rhenmatism, liver diseases, old injuries to the muscles and joints, paralysis, diarrhess, glandular enlargements, diseases peculiar to females, neuralgia, &c., they possess remedial and curative powers of the highest order. Many severe oases of these diseases, which had resisted the most skillful medical treatment, and in which other mineral waters of high repute had been used in vain, have been entirely cared here. Of the vast aumber now suffering with these malades, there is not a sufficient of the comparatively very few who would not be purfectly restored, or growing relief had been sentirely by daylight. The direct route is via Baltimore, McL. Washington, D. C., and Alexandra and Shaurton, Va. The bistance is by railroad, except twenty-dre likes by stage coaches. These springs are situated in a vailey, in an elevated mountain region. The seenery around is wild, romante and beautiful, and the climate in summer delightful, salubrious and invigorating. The hotel accommodations are good and comfortable, and a fine band of music will be in attendance throughout the season. To those who may desire further information, and who will turnish me with their address. I will mail, free of charge, a pamphlet containing a full account of the springs, with cases of cure, &c.
